

Bering Sea Combination Trawl™

A high-opening trawl with a large-mesh bottom and long, smooth body tapers that allow fish easy access to the codend. It incorporates a detachable roller gear footrope or a chain footrope for changing fishing conditions.

Features:

- Designed with large-mesh wings, small-mesh belly, and an overhanging headrope for better herding capabilities when fishing near the bottom.
- Ideal for catching bottom-dwelling fish schools.
- Constructed using high-grade polyethylene netting which allows for greater durability and strength.
- Cut-back lower wings for ease of maintenance.

Size	Recommended Horse Power	Length		Maximum Design Dimensions at Transducer
